

## Student Medical Fact Sheet

The Redcliffe Aero Club (RAC) would like all students to be aware that:

There are no medical requirements for learning to fly when you are in the aircraft with your flight instructor. However, if you have any relevant medical conditions or history, you should consider discussing this with a medical practitioner and your flying school before starting to fly, especially if you intend to become a professional pilot. Safety is paramount for you and others so being fully prepared is essential.

To fly solo, you need to have either a CASA Class 1 or CASA Class 2 Medical Certificate or a Recreational Aviation Medical Practitioner's Certificate. If you have a recreational aviation medical practitioner's certificate you are limited to conducting solo flights in recreational aircraft only. Some other limitations also apply.

All students are required to sit and obtain their medical certificate within 14 days of commencement of course.

You can go onto the CASA website to gain further information and various factsheets that affect a medical certificate class 1 and class 2.

<https://www.casa.gov.au/standard-page/learning-fly-student-pilots>

<https://www.casa.gov.au/standard-page/arn-applications>

<https://www.casa.gov.au/licences-and-certification/landing-page/aviation-medicine>

Approved Medical practitioners for the Brisbane, Queensland areas are listed below. Other Medical Practitioners can be located for different locations on the CASA website.

The study facilities including computer / internet access is available seven (7) day a week 0800-1700.

Should you have any further questions please do not hesitate to contact the team on the below details

### Brisbane
