

Lucas Gozzard – Graduated 2019
Completed AVI50415 Diploma of Aviation (Instrument Rating)

I completed my Diploma of Aviation (Instrument Rating) at The Redcliffe Aero Club in October 2019 which led to me receiving a Commercial Pilot Licence and Multi-Engine Instrument Rating.

I commenced my flight training with RAC in 2017 obtaining my Recreational Pilot Licence and Private Pilot Licence. Over that period of time, I got to know the staff and all aspects of the club very well. I decided to pursue my training with RAC as it was closer to home than other schools but mainly because it was a Club and provided an atmosphere where I was not pressured, and the staff were friendly and very approachable. They were very professional in all aspects. Also, there are no landing fees and being a non-controlled aerodrome, you are not subject to ATC delays or restrictions. The Club provides ample study space and facilities to cater for the students' needs. Instructors are on hand to ask questions and there are computer facilities available.

I would thoroughly recommend The Redcliffe Aero Club to complete flight training with.

Lucas Gozzard.
